

Hydraulic Breakers EC Range

Your durable and reliable choice for day-to-day jobs.

EC 40 T – EC 80 T

Hybrid technology

Integrated nitrogen piston accumulator for constantly high impact energy, safe start-up and smooth operation

VibroSilenced Plus

Non-metallic suspension arrangements to isolate percussion mechanism from breaker box and sealing of all openings for lower noise and vibration levels

Advanced control technology

The integrated control valve optimizes efficiency; the EnergyRecovery system increases operating efficiency and lowers vibrations

EC 90 T – EC 135 T

EC 140 T – EC 180 T

Monoblock design

Combined cylinder & tool holder section eliminating the need for tie rods for higher reliability; replaceable piston liner for cost-effective repairs

Percussion chamber ventilation

The built-in check valve reduces dust intake into the tool guiding area and the percussion chamber

StrokeControl valve

The combined stroke length and start-up mode switching valve enables the operator to adjust the breaker operation mode to the application for optimum performance

ContiLube™ II

Optional self-bleeding automatic lubrication device for optimized grease consumption and continuous lubrication

Field replaceable bushing

Full length floating tool bushing for quick exchange with standard hand tools

¹ Weights apply to standard carriers only. Any variances must be agreed with Epiroc and/or the carrier manufacturer prior to attachment.

² Breaker and breaker box with standard adapter plus working tool.

³ Sound power level guaranteed. Important: EN ISO 3744 in accordance with directive 2000/14/EC. Full details of measurement are available in the Safety and Operating instruction of the product. It can be found on www.podshop.se/epiroc
